Calgary, AB

SKILLS

- Java, Python, C#
- NodeJS
- Git, Github
- MySQL, SQLite
- HTML, CSS, JavaScript
- Software Development Lifecycle
- Agile Methodologies

STRENGTHS

- Strong oral and written communication skills
- Reliable and consistent team player
- Eager to learn and apply new knowledge
- Problem-solving skills in fast-paced environments

Santiago Cardenas

JR. SOFTWARE DEVELOPER

Software Development student at the Southern Alberta Institute of Technology with coursework in various programming disciplines. Strong teamwork, communication, and problem-solving skills. Seeking a software development internship to apply and expand my skills.

EDUCATION

SOFTWARE DEVELOPMENT – Southern Alberta Institute of Technology

August 2025 - Ongoing

EXPERIENCE

CUSA, CWSA, and CMSA Referee

April 2024 – Present

- Officiate and manage soccer matches, ensuring adherence to game rules and maintaining a fair playing environment.
- Communicate effectively with players, coaches, and other officials to resolve conflicts and ensure smooth game operations.
- Demonstrate strong decision-making skills and the ability to handle high-pressure situations.

Trader at ApexTrader and UProfit

May 2023 – October 2023

- Conducted market analysis and executed trades remotely, utilizing technical and fundamental analysis to inform trading decisions.
- Managed trading accounts and tracked performance, ensuring accuracy and adherence to trading strategies.
- Developed problem-solving skills and the ability to adapt to rapidly changing market conditions.

EXPERIENCE – PERSONAL PROJECTS

Portfolio Website

- Developed a personal portfolio website using HTML, CSS, and JavaScript to showcase projects and technical skills. Implemented responsive design principles for optimal viewing on various devices.

COURSES

- Learn to program with Python
- Git: From Noob to Pro!
- Programming fundamentals with Node.js
- Create Websites with HTML, CSS, and JavaScript
- The Complete Java Development Bootcamp

Restaurant Manager App

- Developed a restaurant management application using C# and MAUI Blazor App, with SQL Server Management for database storage. The application enables users to add, update, and delete tables, menu items, employees, customers, and orders. Emphasized user-friendly design and efficient coding practices.

Currency Converter App

- Developed a currency converter application using JavaScript leveraging the ExchangeRate API for real-time data retrieval. Implemented features for accurate currency conversion and designed a clean, intuitive user interface for an enhanced user experience.

These projects demonstrate my ability to independently design, develop, and deploy software solutions while applying best practices in coding and problem-solving.

VOLUNTEER EXPERIENCE

Turn Judge

YMCA Facilities | December 2023 – Present

- Monitored and ensured swimmers' adherence to competition rules, contributing to the fairness and integrity of events.
- Played a key role in event operations by assisting with the setup and coordination of swim meets
- Supported athletes and officials by providing accurate and timely judgments on turn executions, helping to maintain a smooth and efficient competition flow.
